2010-2011 - The federal government has required the change in racial/ethnic code classifications. Under the new method there are 64 possible racial/ethnic code combinations. To simplify reporting at federal and state levels, 7 categories will be used. It is possible that a student could be classified with more than one race. Race: a sociological designation identifying a class sharing some outward physical characteristics. Ethnic Group: Socially distinguishable from other groups and has developed its own subculture which can include nationality, religion, and language and has a shared feeling of "peoplehood".
