SUPERINTENDENT LARRY G. BERGESON, M.ED.

Washington County School District will comply fully with Utah State Public Health Order 2020-26 signed on 8 December 2020 to include any amendments, modifications, or superseded guidance. It requires all participants of high school athletic and extracurricular events to submit to an approved COVID-19 test and receive a negative test result within the 14 days immediately prior to the athletic or extracurricular activity. Additionally, the participant must not be subject to a required quarantine or isolation period or be experiencing any symptom of COVID-19.

Athletics and other extra-curricular activities are completely voluntary, and students are not required to play any sport, however, if they want to participate on any District athletic team or in any additional extra-curricular activity, they will be required to comply with the testing requirements offered by the state and UHSAA. We feel this is a good compromise to allow winter sports to continue for all athletes. With that understanding, parents have every right to refuse to have their child participate in the testing process. This will also mean that your child will not be allowed to participate in any extra-curricular activity or sport in the District.
