

Dear Parents,

Beginning Monday, November 2, Washington County School District will begin offering free meals to all students at our schools. The USDA recently announced that they have extended their funding for these meals through the 2020-21 school year. Accordingly, these meals will now be free to our students.

Some things to remember:

- Breakfasts and lunches will only be served at school.
- Free breakfast and lunch is only available for school-aged students.
- Free breakfast and lunch waiver does not apply to a-la-carte items (i.e. milk only purchases).
- Parents and unenrolled siblings will not be allowed to come into the school building.
- Families will still be responsible for charges incurred prior to November 2.

We are glad to be able to pass on this opportunity to our students and their families. Please contact your school lunch secretary with any questions or concerns you may have.

Thank you for your support.

Washington County School District
